SWEETHEART OF THE GUARD... Betty Baker of Torrance has been selected as Miss 132d Engineer Battalion by members of the South Bay National Guard unit on the pretext that she's the girl they'd "most like to protect." Doing their turn at protecting her are Pfc. James S. Shearer (left) of Hermosa Beach, and Specialist David Holmes of Lomita.

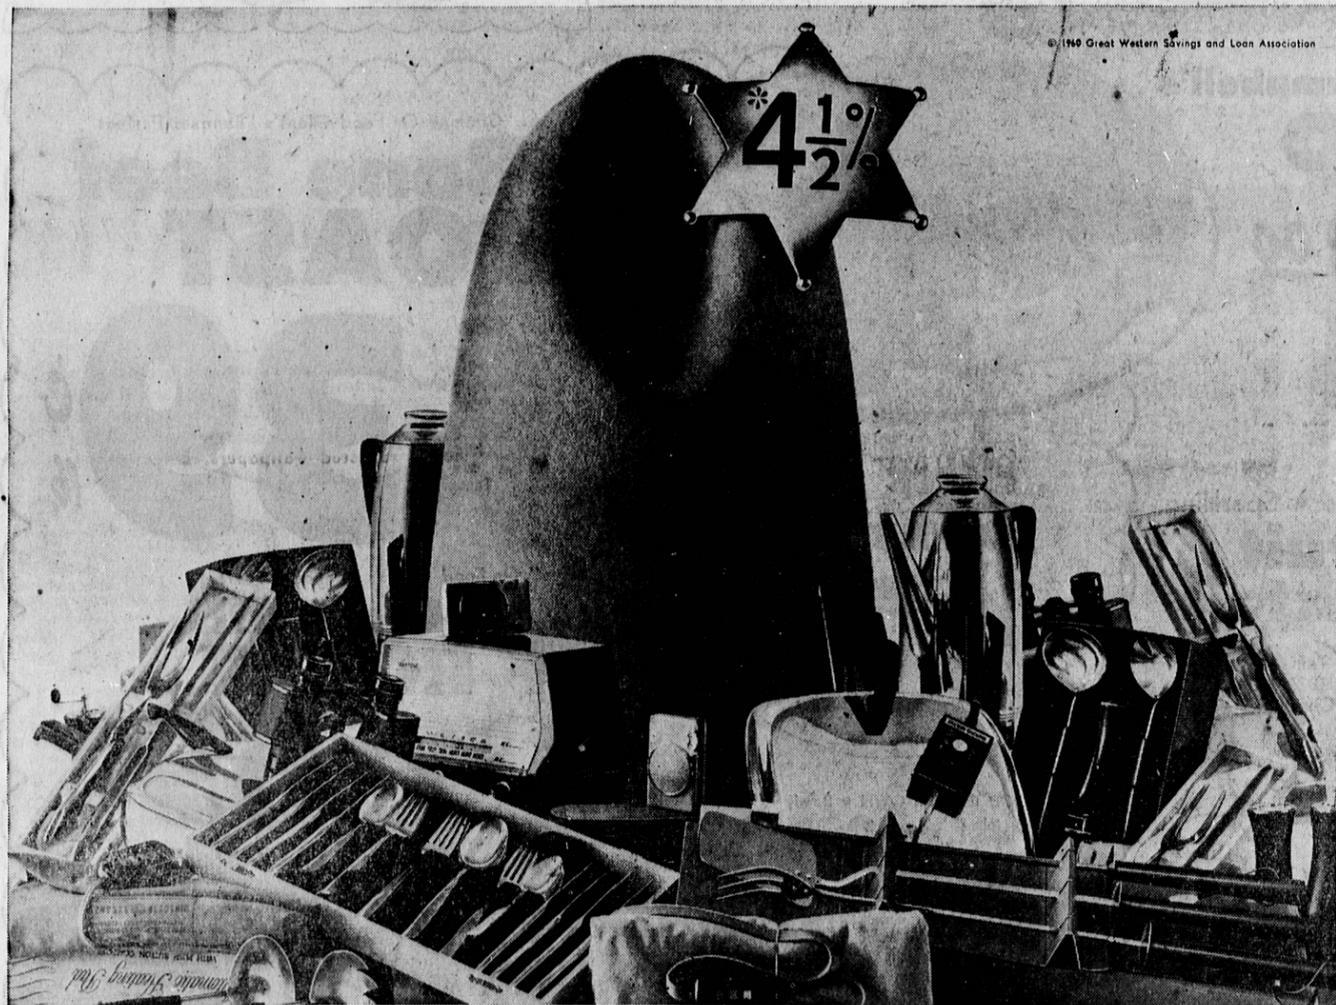

POLE CALL... When the Mad Englishman, who set out some time ago to set a flagpole sitting record on the Manhattan Motors lot in Manhattan Beach, got a toothache this week, he didn't go to the dentist... the dentist came to him, in his crate-sized perch atop the pole shown here.

NOT ROUTINE... Strictly in the unusual class is the dental office used here by Dr. Howard Stephens of Manhattan Beach who was hoisted to the top of a flagpole to check the teeth of the "Mad Englishman," a professional flagpole sitter. Two bothersome teeth were removed in the strange surroundings.

Pole Sitter Has Toothache, Dentist Climbs to His Aid

A day off work can be spent in many ways. If you work in the oil industry, you would not, normally wander through the oil fields; or if you were a commercial fisherman you would hardly go fishing on your one day off a week. Those in the medical profession take a day off when they can, too, as was the case of Howard D. Stephens, DDS, of Manhattan Beach. He was called upon by a client to render his services in dentistry high atop a professional flagpole sitters' perch. YOU WOULD hardly think a flagpole sitter overlooking a large lot full of shiny new cars, would have trouble with his teeth, but that was the case of the "Mad Englishman." He told the manager of Manhattan Motors, Sam Bolding, that he had a tooth problem, and could Sam do something about it. Bolding called Dr. Stephens who arrived on the lot just across the street from his office, complete with white smock, portable dental equipment and a happy smile. AT THE bottom of the pole he looked up the 88 ft., waved at the "Mad Englishman," and was then tied to a rope chair and hoisted to the top. There were two seals at the bottom of the pole; both barked with joy; they have been the "Mad Englishman's" constant companions. Dr. Stephens arrived safe and sound in the "Mad Englishman's" home, a 5 ft. by 5 ft. platform. One could hardly call this a house call. After the dentist squeezed through a 2 ft. by 2 ft. door, the "Mad Englishman" sat down, opened his mouth, received his inspection, and Dr. Stephens removed two bothersome teeth. The bearded flagpole sitter thanked the good doctor profoundly, lowered him away, and another successful house (pole?) call had been completed through the means of modern dentistry.
